

You will be researching ONE organism to find out adaptations that it has to live successfully in its habitat. You will be describing its physical adaptations (how it looks / appearance) and its behavioral adaptations (how it acts). You will complete the final project in Google Slides through Google Classroom as well as have a neat, hand-drawn illustration *that will be labeled with its physical adaptations*.

ALL WORK NEEDS TO BE IN YOUR OWN WORDS – NO PLAGIARISM!!!!!!!

Your project is due in its entirety by Friday, October 7th. Points will be deducted after your class period that day.

Creative Report requirements:

All information must be clearly explained and easily identified in your Google Slides presentation.

- a. Name and picture (1pt) _____/1
- b. Habitat / Home (3pts) _____/3
- c. Climate / Biome (3pts) _____/3
- d. Physical Adaptations (5pts) _____/5
